

Make Memories and Leave a Legacy with the Legacy Income Option

When you purchase an American Custom 10SM fixed-indexed annuity from Great American Life Insurance Company®, you have the opportunity to add the Legacy Income OptionSM rider for additional benefits. This death benefit rider provides access to part of your money to do the things you want now and allows you to leave a legacy for your loved ones later.

You can take protected withdrawals from your annuity while your rider death benefit base remains equal to your total purchase payments. Protected withdrawals of 5% of the account value (or the required minimum distribution, if greater) are available for 10 contract years. The 10 contract years do not have to be consecutive, but will end once you reach age 85.

The Legacy Income Option can help you make memories that last a lifetime and leave a legacy for years to come. Talk with your insurance professional to see if it's right for you.
