

Producer Guide to Suitability - Florida

Finding the right fit

Great American Life Insurance Company® offers a wide array of retirement products to help your clients reach their financial goals. As a producer, you play a key role in helping clients find solutions to meet their long-term or retirement needs. Helping clients achieve their goals begins with suitability.

What is suitability?

Suitability means knowing your customer to tailor your product recommendation.

Suitability within the insurance industry refers to the relationship between your product recommendation and your client. When a product is suitable for your client's long-term or retirement goals, it's appropriate. In other words, it's a fit.

A thorough suitability analysis is an expected component of quality customer service and allows you to establish yourself as a competent, trustworthy professional. In doing so, it paves the way to client loyalty and building future relationships.

Regulatory requirement

Many insurance regulators have established parameters for the sales process of all types of annuities including expectations regarding suitability. In most states suitability is a regulatory requirement.

The National Association of Insurance Commissioners (NAIC) issued a model regulation to address suitability concerns for all annuities (including traditional fixed, fixed-indexed and variable) and forms the basis for most state suitability regulations.

Great American Life® requires fairness, integrity and honesty in all customer interactions.

Great American Life's view on suitability

Great American Life requires its producers to fully discuss and evaluate each client's current financial situation and future objectives prior to recommending an annuity product.

We are dedicated to ensuring that our producers have the information and resources available to make a suitable sale. Some of these tools include:

Fixed annuity training

With our fixed annuity training, you will learn about our traditional fixed and fixed-indexed annuities. This training can be found on the agent secured website. Product training must be completed before you make a recommendation.

Florida Annuity Suitability Questionnaire and Client Financial Disclosure (CFD)

A Suitability Questionnaire or CFD must be submitted for all IRA and non-qualified sales, including transfers and rollovers to existing contracts. The forms help you capture the client's information, so you can make a suitable determination. Sales will be held as not in good order until we receive the fully completed form. There are multiple versions of the forms, including:

- Florida Annuity Suitability Questionnaire (pages 5-15): The Suitability Questionnaire is required for new IRA and non-qualified sales.
- Client Financial Disclosure Supplement (pages 16-18): The CFD Supplement is required when submitting an additional purchase payment to an existing contract. If it has been more than two years since completing the Suitability Questionnaire, then you must complete a new one.
- Florida Annuity Suitability Questionnaire for Irrevocable Trusts (pages 19-29): Use this version of the Suitability Questionnaire if an irrevocable trust is to own the contract.
- > Client Financial Disclosure Supplement for Irrevocable Trusts (pages 30-32): Use this version of the CFD supplement if submitting an additional purchase payment to an existing contract owned by an irrevocable trust. If it has been more than two years since completing the Suitability Questionnaire for Irrevocable Trusts, then you must complete a new one.

Product guides and other resources

Detailed product guides and other resources are available to help you fully understand the benefits and features of our various products.

Your role

Because no single product is right for everyone, you must develop a thorough understanding of the annuity products you are selling and of your client's current and future expenses. Also consider their current and future income needs, time horizon, lifestyle expectations and upcoming life events. Only after obtaining and analyzing all of the client's objectives and information is it possible to make a suitable recommendation

At the time of sale you should make a record of all recommendations you have made.

Questions to ask your clients

What is their current financial situation?

- What is their monthly spendable income after tax and monthly expenses?
- Are their financial objectives being met with their current financial product portfolio?

What are their future objectives?

- Financially, where do they want to be in five years? 10 years? 20 years?
- How much time do they have until they need their money?
- How would they like to access funds in the future?
- What assets do they possess to cover anticipated needs and emergencies (after purchasing the proposed annuity)?

Other considerations

- What is their risk tolerance?
- What are their lifestyle goals?
- How do they want death benefits paid to their beneficiaries?
- What is their health history?
- Is there a need to address lifestyle changes such as extended care?
- Do they anticipate a significant reduction in spendable income or a significant increase in future expenses?

Replacements

When your recommendation involves the exchange or replacement of another insurance product, you must have a reasonable basis to believe that the transaction as a whole is suitable, taking into consideration all of the following:

- Whether the client will incur a surrender charge, be subject to the commencement of a new surrender period, lose existing benefits (such as death, living or other contractual benefits), or be subject to increased fees, investment advisory fees or charges for riders and similar product enhancements;
- ➤ Whether the client will benefit from the enhancements and improvements of the new product; and
- Whether the client has had another annuity exchange or replacement and, in particular, an exchange or replacement within the preceding five years.

Internal Replacements

A CFD is required for all tax qualifications in all states.

Special considerations for older clients

Clients ages 65 and older with lower incomes tend to have a higher liquidity need. The length of early withdrawal charges, free withdrawal privileges and the ability to annuitize the contract when needed are important considerations. Encourage the participation of adult children or other family members in the sales process to help ensure that:

- The suitability information gathered is complete and accurate:
- All objectives and lifestyle events have been thoroughly considered; and
- ➤ There is a common understanding of the costs, benefits and features of the product recommendation.

Special consideration for Minnesota and California Residents

For Minnesota and California clients age 65 and older, you may not recommend a replacement or exchange that involves a surrender charge unless the transaction as a whole confers a substantial financial benefit over the life of the annuity being purchased.

Step-by-step instructions for completing the Suitability Questionnaire/CFD (forms on pages 4-19)

Important information:

- ➤ The fully completed Suitability Questionnaire/CFD must be submitted with all IRA and non-qualified sales, including transfers and rollovers to existing contracts.
- The form will assist you in capturing the suitability information that you will need to make a reasonable recommendation.
- ➤ All IRA and non-qualified sales will be held as not in good order until we receive the completed form signed and dated on or prior to the application date.
- > The form may be found in the New Business Kit section of the agent secured website.
- ➤ If you are submitting multiple applications for the same client or irrevocable trust at the same time, the client or trust's financial information and the purchase payments of the annuities should be combined, and one form should be submitted.

Please note, not all of the following instructions are applicable to all versions of the Suitability Questionnaire/CFD. However, all versions are included in this guide for your reference.

A. Owner Information

List the person or trust who will own the annuity.

- > Specify the contract owner's name, social security number, age and employment status. Repeat these steps if there is a joint owner. If the joint owner is the owner's spouse, check the box.
- ➤ If the owner of the contract is different from the annuitant, the form must be completed based on the owner's information.
- > If the owner of the contract is not an individual, complete the form based on the annuitant's information.
- ➤ If the owner is a revocable trust, complete the form based on the trust settlor's overall income, assets and health.
- ➤ If the owner of the contract is an irrevocable trust, use the Suitability Questionnaire/CFD for Irrevocable Trusts. Specify the trust name, tax ID number and date at which the trust became irrevocable.

B. Client Profile

In order to recommend products that satisfy your client's or the trust's needs and financial objectives, you must discover a complete picture of their financial status. Use the questions and tips below to help your client/the trustee complete the remaining sections of the form. If there is a joint owner, combined information must be provided.

- ➤ Government benefits: Find out if your client/the trust intends to apply for means-tested government benefits.

- ➤ Distributions to beneficiaries (irrevocable trusts only): Ask if the trustee expects significant decreases in the trust's liquid assets or net income over the next 10 years.

C. Financial Status

- > Find out your client's sources of income.
- ➤ Determine your client's net monthly income, monthly expenses, monthly spendable income and total debt. For irrevocable trusts, provide the annual net income available for distributions and total debt.

D. Assets

➤ Complete the tables to calculate total liquid and non-liquid net worth.

E. Needs and Objectives

- ➤ Talk with your client/the trustee about insurable risks and financial objectives.
- Ensure your client/the trustee understands the amount of interest credited may vary and determine if that changes the risk tolerance.
- ➤ Find out the amount your client/the trustee plans to withdraw, the anticipated date of the first withdrawal and the type of withdrawal.
- While discussing financial objectives, find out the reason your client wishes to purchase an annuity.
- Irrevocable trusts only: Determine the purpose of trust distributions to beneficiaries from trust income and trust principal. If trust distributions are made for health/ support/ maintenance, specify the average amount of annual distributions.

F. Source of Funds

➤ Find out your client's/the trust's source of funds for the annuity's purchase payment. Ask if there are costs associated with the source of funds, and what percentage of the purchase price these costs represent.

G. Replacement Information

➤ If another annuity is the source of funds, then you must complete the requested information for each annuity contract that is being replaced.

H. Signatures

➤ Make sure the owner/trustee, joint owner/co-trustee (if applicable) and you sign and date the form on or prior to the application date.

I. Additional information required by Florida

- ➤ Ask if sufficient available cash and liquid assets will remain to pay for living and medical expenses after the annuity is purchased.
- Find out if any changes are expected to their current living expenses.
- Ask if any changes to out-of-pocket medical expenses are anticipated.
- ➤ Find out if sufficient income exists to cover any future changes to living expenses and out-of-pocket medical expenses during the surrender charge period.
- ➤ Ask if an emergency fund exists for unexpected expenses.

J. Financial objectives and other considerations

- Ask why your client/settlor or trustee wishes to purchase an annuity.
- Find out your client's/settlor's or trust's investment objectives.
- > Find out your client's/settlor's or trust's risk tolerance.
- Ask if your client/settlor or trustee has investment experience.
