

Great American

Undeniable strength and experience

Uncomplicate Retirement®

With over a century of experience, Great American Insurance Group has a long history of helping clients reach their financial goals.

Consistently strong ratings: Our member annuity companies are rated “A+” (Superior) by AM Best and “A+” by Standard & Poor’s.¹ In fact, while many insurance companies have seen their ratings fluctuate during difficult economic times, we received an upgrade to “A+” by Standard & Poor’s following the 2008 financial crisis and an upgrade to “A+” by AM Best during the 2020 pandemic.

Solid history: With roots dating back to **1872**, Great American Insurance Group has withstood the test of time through many financial crises. In addition, we’ve been under the leadership of the same great American family for more than 40 years.

Proven stability: Our distribution of invested assets creates a low risk and stable profile. 98% of our fixed maturity portfolio had a National Association of Insurance Commissioners rating of 1 or 2 (the highest of six possible ratings) at December 31, 2019.

Continued growth: Our parent company American Financial Group had more than \$70 billion in assets as of December 31, 2019.²

Continued record levels of capital: We have the financial backing to continue to grow and weather the inevitable swings in the financial marketplace. All insurers are required to maintain a minimum level of risk-based capital to support business operations while writing contracts. Our risk-based capital level significantly exceeds the requirement. Maintaining a strong capital position means that we will be here to serve you in the long run.
