A base interest rate is set for the purchase payment. The Base Interest Rate will never be less than the Guaranteed Minimum Interest Rate (GMIR) for the contract, but it may be higher. Please refer to Page 1 for the GMIR that applies to currently issued contracts. The GMIR will never be less than 1.00%.

In each of years two through seven of the purchase payment's seven-year term, a level interest rate adjustment will be added to the credited rate of the previous year. Currently, the annual interest rate increase is 0.25%, and it will never be less than 0.01%

Effective yield is equal to the average interest rate over the initial seven-year term.

Early withdrawal charges apply if you surrender your annuity or take withdrawals from it during the initial seven-year term. If subsequent seven-year terms are selected, early withdrawal charges will apply during such terms. Early withdrawal charges do not apply to amounts covered by the 10% free withdrawal allowance.

The contract provides lifetime income payout options. If you select one of these options, we will make periodic payments until the death of the person on whose life payments are based. After the annuity payout initiation date, you cannot surrender your annuity or withdraw any other money from your annuity.

In general you will pay ordinary income taxes on the earned interest when you receive annuity benefit payments, you surrender your annuity or you take a withdrawal. You may pay a 10% federal penalty tax on the taxable amount of any payment that you receive before age 59½.
