

Planning for a secure retirement

While there are many factors to consider when planning for your future, the following worksheet from MassMutual Ascend provides some general questions to help you get on the right track for reaching your goals.

How much longer do you want to work? Generally the longer you work, the longer you will have to contribute to retirement plans and savings.

How do you want to spend your time? If you plan to change your lifestyle when you retire (for example, by traveling more often), you should think about how it may affect your retirement expenses.

Where would you ideally like to live? You should consider the cost of living in your ideal location as it can affect how much income you may need in retirement.
