Caps and rates are current as of the date shown and are subject to change at any time.

The indexed interest rate for a term year of an indexed strategy will never be more than its cap for that term.

The participation rate for a term year of an indexed strategy is the percentage of index growth that is used when calculating the indexed interest rate for that term year.

If you buy this annuity and allocate money to an indexed strategy, you aren't investing directly in the related index or any stock included in the index or in the related exchange-traded fund or any investments held in its portfolio.

Indexed interest, if any, is credited at the end of the term year. An indexed interest strategy may earn 0% interest for a term year, but your account value will not go down unless you take a withdrawal from your annuity.

The early withdrawal charge and market value adjustment do not apply to amounts that are covered by the 10% penalty free withdrawal or amounts that qualify under a waiver rider.

Withdrawals, early withdrawal charges, market value adjustments and rider charges impact contract and rider values and benefits. Taxable amounts withdrawn prior to age 59 ½ may be subject to a penalty tax in addition to ordinary income tax.

IncomeSecure is an optional rider available for an annual charge. The rider provides income payments for life that are calculated using the rider benefit base.
