What happens after year three?

At the end of the third contract year, we will set a new interest rate that is guaranteed for years four through six. The new interest rate may be higher or lower than the interest rate during your first three-year term, but it will never be lower than your annuity's guaranteed minimum interest rate.

If you're not satisfied with the new interest rate, you can surrender your annuity in the last 30 days of the first three-year term without incurring an early withdrawal charge.

After contract year six, we will set the interest rate from time to time. It may vary but will never be lower than the guaranteed minimum rate.

Non-MVA rates shown above. Available in: AK and UT. Interest rates are current as of the date shown and are subject to change at any time.

Early withdrawal charges apply if you surrender your annuity or take withdrawals from it during the six-year term. Early withdrawal charges do not apply to amounts covered by the 10% free withdrawal allowance, or to surrenders that occur during the last 30 days of the first three-year term.

The contract provides lifetime income payout options. If you select one of these options, we will make periodic payments until the death of the person on whose life payments are based. After the annuity payout initiation date, you cannot surrender your annuity or withdraw any other money from your annuity.

In general you will pay ordinary income taxes on the earned interest when you receive annuity benefit payments, you surrender your annuity or you take a withdrawal. You may pay a 10% federal penalty tax on the taxable amount of any payment that you receive before age 59½.
