- Additional purchase payments accepted for **first 10 contract years**

Both products offer:

- \$25,000 minimum initial purchase payment; \$2,000 minimum subsequent
- 10% penalty-free withdrawals
- Declared rate and indexed strategies
- Bailout feature
- Extended care and terminal illness waiver riders included
- Guaranteed minimum surrender value of 100% of purchase payments plus interest credited at a guaranteed minimum rate*

Charges: Early withdrawal charges, which start at 9%, apply if you surrender your annuity or take a withdrawal during the applicable contract years. An early withdrawal charge will reduce your account value.

Strategies: Funds allocated to the declared rate strategy for a term will earn interest at the rate we declare for that term. Funds allocated to an indexed strategy for a term will earn interest based in part on the positive performance of an external index. Interest for a term of an indexed strategy is guaranteed to never be less than 0%.

Penalty-Free Withdrawals: Each year, you can withdraw a portion of your money without an early withdrawal charge. In the first contract year, this amount is 10% of your purchase payment. After that, this amount is 10% of the sum of your account value on the most recent contract anniversary plus any subsequent purchase payments. In addition, early withdrawal charges do not apply to amounts you withdraw from a strategy at the end of a term if that strategy's renewal cap is below its bailout cap (bailout feature) or to amounts that qualify under a waiver rider. Withdrawals from an annuity may have tax consequences.

***Guaranteed minimum surrender value is 100% of purchase payments, plus interest credited daily at a minimum guaranteed rate, minus prior withdrawals and early withdrawal charges, and minus the account value multiplied by the applicable early withdrawal charge rate.**
